Strength Phase

LCB TRAINING

Coach Broc • Player Development Program

Program Overview

Phase 3 is peak intensity. Workout A introduces heavier Goblet Squats and Single-Leg RDLs. Workout B clusters are the most demanding of the program, built around max-effort athletic combinations.

Program Structure

Workout A: Straight sets — build movement quality and strength under load.

Workout B: Clusters and supersets — combine strength with explosive movements back to back.

Train 3x per week alternating A and B. Program complete after Week 12 — check in with Coach Broc.
