Chris Broccolino

Player Development Coach | LCB Training

About Me

I've spent 12+ years working with baseball players at every level - helping them not just become better athletes, but more confident people. As a current High School Varsity coach and longtime player development coach, my goal is simple: build confidence on and off the field. Every player I work with gets my full attention, honest feedback, and a plan built around their individual development.

Program Details
