

MOBILITY

Ages 8–11

12-Week Progressive Program

LCB TRAINING

Coach Broc • Player Development Program

Program Overview

Mobility work is often the most overlooked part of athletic development — but it's what keeps young athletes moving freely, prevents injury, and builds the range of motion needed for a powerful, efficient swing and throw. This program uses fun, simple movements to build flexibility and joint control across the whole body.

Program Structure

Weeks 1–4 (Foundation): Learning basic stretches and controlled movements for major joints.

Weeks 5–8 (Build): Holding stretches longer and adding rotational mobility work for the swing.

Weeks 9–12 (Performance): Combining mobility flows that mirror baseball movements.

This program can be done 3–4x per week, including as a warm-up before practice or games. Sessions take about 15–20 minutes.

Questions About an Exercise?

Not sure how a stretch is supposed to look? Check the Exercise Glossary on the next page for a quick description of every movement in this program. Still have questions? Shoot Coach Broc an email anytime, or do a quick search online for a visual reference — just make sure whatever you find matches the cue described here.

Exercise Glossary – Mobility (Ages 8-11)

Quick form reminders for every exercise in this program, listed alphabetically for easy reference.

90/90 Hip Switches: Sit with both knees bent at 90 degrees, one in front and one to the side, rotate to switch which leg is in front without using hands.

Ankle Circles: Lift one foot slightly off the ground and rotate at the ankle, making slow full circles each direction.

Arm Circles: Extend arms straight out to the sides and make slow, controlled circles, increasing size gradually.

Deep Squat Hold: Sit down into the bottom of a squat as low as comfortable, chest up, hold the position and relax into it.

Fielding-Position Hip Openers: From an athletic fielding stance, rotate one knee outward and back like opening a gate, alternate sides.

Forward Fold: Stand tall, slowly hinge forward reaching toward the toes, keep a slight bend in the knees, let the back relax.

Full Body Flow: Move through the program's earlier stretches back to back as one connected sequence, no rest between movements.

Shoulder Cross-Body Stretch: Bring one arm straight across the chest, use the other arm to gently pull it closer, feel the stretch in the shoulder.

Standing Bat-Swing Rotation: Stand in an athletic stance and slowly rotate the torso through a swing-like motion without a bat, focus on full rotation.

Standing Quad Stretch: Stand on one leg, grab the opposite ankle behind you, gently pull the heel toward the glutes while keeping knees together.

Throwing Arm Circles: With throwing arm extended, make slow controlled circles forward and backward to loosen the shoulder.

Throwing Shoulder Sleeper Stretch: Lie on the throwing-arm side, bend that elbow to 90 degrees, gently press the forearm down toward the ground with the other hand.

Torso Twists: Stand with feet planted, rotate the upper body side to side with control, let the arms swing naturally.

Walking Forward Fold: Take a step forward then fold forward reaching toward the ground, alternate which foot leads each step.

Walking Quad Stretch: Take a step, then grab the trailing foot and pull the heel toward the glutes briefly before stepping again.

World's Greatest Stretch: Step into a deep lunge, place both hands inside the front foot, rotate the torso and reach one arm toward the ceiling, then switch sides.

WEEK 1

FOUNDATION PHASE

Mobility Flow

Exercise	Sets	Reps / Time	Rest
Arm Circles (forward/back)	1	10 each direction	—
Torso Twists	2	10 each side	—
Standing Quad Stretch	2	15 sec each leg	—
Forward Fold (hamstrings)	2	15 sec	—
Ankle Circles	1	10 each direction	—

Coach's Note: Go slow and breathe through each stretch — no bouncing, just smooth controlled movement.

WEEK 2

FOUNDATION PHASE

Mobility Flow

Exercise	Sets	Reps / Time	Rest
Arm Circles (forward/back)	1	10 each direction	—
Torso Twists	2	12 each side	—
Standing Quad Stretch	2	20 sec each leg	—
Forward Fold	2	20 sec	—
World's Greatest Stretch	2	5 each side	—

Coach's Note: World's Greatest Stretch is a full-body movement — great for hips, hamstrings, and shoulders together.

WEEK 3

FOUNDATION PHASE

Mobility Flow

Exercise	Sets	Reps / Time	Rest
Arm Circles	1	12 each direction	—
Torso Twists	2	15 each side	—
Walking Quad Stretch	2	10 steps each leg	—
Walking Forward Fold	2	10 steps	—

Exercise	Sets	Reps / Time	Rest
World's Greatest Stretch	2	6 each side	—
90/90 Hip Switches	2	8 each side	—

Coach's Note: 90/90 Hip Switches build the hip rotation needed for a strong baseball swing.

WEEK 4	FOUNDATION PHASE
---------------	-------------------------

Mobility Flow

Exercise	Sets	Reps / Time	Rest
Arm Circles	1	12 each direction	—
Torso Twists	2	15 each side	—
Walking Quad Stretch	2	12 steps each leg	—
Walking Forward Fold	2	12 steps	—
World's Greatest Stretch	3	6 each side	—
90/90 Hip Switches	3	10 each side	—

Coach's Note: End of Foundation Phase! Movements should already feel more comfortable and natural.

WEEK 5

BUILD PHASE

Mobility Flow

Exercise	Sets	Reps / Time	Rest
Torso Twists (arms extended)	2	15 each side	—
World's Greatest Stretch	3	6 each side	—
90/90 Hip Switches	3	10 each side	—
Standing Bat-Swing Rotation (no bat)	2	10 each side	—
Shoulder Cross-Body Stretch	2	15 sec each arm	—

Coach's Note: Standing Bat-Swing Rotation: mimic your swing slowly to build rotational range of motion.

WEEK 6

BUILD PHASE

Mobility Flow

Exercise	Sets	Reps / Time	Rest
Torso Twists (arms extended)	2	18 each side	—
World's Greatest Stretch	3	7 each side	—
90/90 Hip Switches	3	12 each side	—
Standing Bat-Swing Rotation	3	10 each side	—
Shoulder Cross-Body Stretch	2	20 sec each arm	—

WEEK 7

BUILD PHASE

Mobility Flow

Exercise	Sets	Reps / Time	Rest
Torso Twists (arms extended)	2	20 each side	—
World's Greatest Stretch	3	8 each side	—
90/90 Hip Switches	3	12 each side	—
Standing Bat-Swing Rotation	3	12 each side	—

Exercise	Sets	Reps / Time	Rest
Throwing Arm Circles (band optional)	2	10 each direction	—
Deep Squat Hold (hip mobility)	2	20 sec	—

Coach's Note: Deep Squat Hold builds hip and ankle mobility important for fielding ground balls.

WEEK 8	BUILD PHASE
---------------	--------------------

Mobility Flow

Exercise	Sets	Reps / Time	Rest
Torso Twists (arms extended)	2	20 each side	—
World's Greatest Stretch	3	8 each side	—
90/90 Hip Switches	3	14 each side	—
Standing Bat-Swing Rotation	3	14 each side	—
Throwing Arm Circles	2	12 each direction	—
Deep Squat Hold	3	25 sec	—

Coach's Note: End of Build Phase! You should be able to rotate further and hold positions longer than Week 5.

WEEK 9

PERFORMANCE PHASE

Mobility Flow

Exercise	Sets	Reps / Time	Rest
Full Body Flow (combine all above)	1	Full sequence	—
Fielding-Position Hip Openers	2	8 each side	—
Standing Bat-Swing Rotation (weighted optional)	3	12 each side	—
Throwing Shoulder Sleeper Stretch	2	15 sec each arm	—

Coach's Note: Fielding-Position Hip Openers mirror the ready position before a ground ball — go slow.

WEEK 10

PERFORMANCE PHASE

Mobility Flow

Exercise	Sets	Reps / Time	Rest
Full Body Flow	1	Full sequence	—
Fielding-Position Hip Openers	2	10 each side	—
Standing Bat-Swing Rotation	3	14 each side	—
Throwing Shoulder Sleeper Stretch	2	20 sec each arm	—

WEEK 11

PERFORMANCE PHASE

Mobility Flow

Exercise	Sets	Reps / Time	Rest
Full Body Flow	2	Full sequence	—
Fielding-Position Hip Openers	3	10 each side	—
Standing Bat-Swing Rotation	3	16 each side	—
Throwing Shoulder Sleeper Stretch	2	20 sec each arm	—

Coach's Note: Almost there! Notice your rotation and hip openness compared to Week 1.

Mobility Flow

Exercise	Sets	Reps / Time	Rest
Full Body Flow	2	Full sequence	—
Fielding-Position Hip Openers	3	12 each side	—
Standing Bat-Swing Rotation	3	18 each side	—
Throwing Shoulder Sleeper Stretch	2	25 sec each arm	—

Coach's Note: Program complete! Keep this routine as a pre-practice warm-up — mobility is something you maintain, not finish.
