Arm Care Routine: 4-Week Starter

Mon, Wed, Fri, Sat | 10-12 min

This is not medical advice. If you have arm pain, stop and see a doctor or physical therapist before continuing.

Prepared by Coach Broc - LCB Training

How to Use This Routine

This is not medical advice. If you have arm pain, stop and see a doctor or physical therapist before continuing.

Safety

Stop if anything feels sharp or pinchy. Soreness is okay, pain is not. Never throw max effort through soreness. If you have had shoulder issues, check with your PT or doctor before starting.

- Do this routine on Mon, Wed, Fri, Sat each week (4 days per week), on top of practice. Skip on game days if you are sore.
- Equipment: Resistance band, wall, light weight (water bottle).
- Best with a light band with handles (we recommend Jaeger Sports J-Bands, adult). A heavy loop band is fine for rows and pull-aparts, but skip the shoulder rotations until you have a light band.
- Weeks 1-4 (this phase): Same exercises and prescriptions every session. Focus on clean form and finishing every rep with control.
- Check off each session on the 4-week tracker at the end of this PDF.

Your Routine (Weeks 1-4)

Exercise	Sets x Reps	Coaching cue
Band pull-aparts	2x15	Stand tall, pull the band to your chest with straight wrists and squeeze your shoulder blades.
Band external rotation at side (elbow 90, towel under arm)	2x12 each arm	Keep your elbow pinned at your side and rotate your forearm out without shrugging.
Band internal rotation at side	2x12 each arm	Same setup as external rotation; rotate your forearm in with control, no trunk twist.
Band rows	2x15	Pull your elbows back like starting a lawn mower; pause when your hands reach your ribs.
Wall slides	2x10	Forearms on the wall, slide up and down while keeping your lower back flat to the wall.
Open-book thoracic rotation	1x8 each side	On your side, open your top arm like a book and follow your hand with your eyes.
Wrist curls with water bottle	1x15	Forearm on your knee, curl the bottle up using only your wrist, slow on the way down.
Wrist extensions with water bottle	1x15	Same setup, raise the back of your hand toward the ceiling with a controlled tempo.
Forearm rotations with water bottle	1x15 each direction	Hold the bottle vertical and rotate your forearm palm up and palm down without moving your elbow.

4-Week Session Tracker

Week 1	[ ]	[ ]	[ ]	[ ]
Week 2	[ ]	[ ]	[ ]	[ ]
Week 3	[ ]	[ ]	[ ]	[ ]
Week 4	[ ]	[ ]	[ ]	[ ]

Arm Care Routine - Week 4 Check-In

Test yourself: complete this week with honest reps, full effort, and clean form. Note one win and one fix for next week.

What comes next

Weeks 5-12 add more advanced arm care work (Y-T-W, 90/90, long toss progression). Keep building in the LCB app.
