Strength Phase

LCB TRAINING

Coach Broc • Player Development Program

Program Overview

Phase 3 is peak intensity. Every session should feel genuinely hard. Track weights and beat them week over week. Workout B clusters at this phase are built around max-effort compound and explosive combinations that develop elite athletic strength.

Program Structure

Workout A: Straight sets — build real strength under load with tracked weights.

Workout B: Clusters and supersets — combine heavy compound movements with explosive work.

Train 3-4x per week alternating A and B. Program complete after Week 12.
