

STRENGTH TRAINING

Ages 8–11 · Phase 3 (Weeks 9–12)

Strength Phase

LCB TRAINING

Coach Broc • Player Development Program

Program Overview

Phase 3 is where you put it all together. Workout A pushes your strength to its peak with goblet squats, single-leg work, and elevated push-ups. Workout B clusters are the most challenging yet — combining loaded movements with plyometrics for maximum athletic development.

Program Structure

Workout A: Straight sets at peak volume and intensity for this age group.

Workout B: Demanding clusters that combine strength, power, and conditioning.

Train 2-3x per week alternating A and B. Program complete after Week 12 — check in with Coach Broc.

Exercise Glossary – Strength Phase 3 (Ages 8-11)

Quick form reminders for every exercise in this program, listed alphabetically for easy reference.

Goblet Squat: Hold a light dumbbell at chest height, squat down keeping chest tall and elbows inside the knees.

High Knee Skips: Skip forward driving knee up to hip height each step, stay light and quick on toes.

Lateral Bound: Jump sideways off one leg, land softly on the opposite leg, stick the landing.

Plank Reach: From a plank position, reach one arm straight forward without letting hips rotate or sag.

Push-Up (feet elevated): Standard push-up with feet raised on a chair or step, increases upper chest demand.

Single-Leg Glute Bridge: Lie on back, one leg extended, drive hips up through the heel of the grounded foot.

Skater Jump: Jump laterally from one foot to the other, reach opposite hand toward the landing foot, stay low.

Squat Jump: Squat down then explode up as high as possible, land softly and reset before next rep.

Walking Lunge: Step forward into a lunge, push off the back foot to step into the next lunge, alternate legs.
