

MOBILITY

Ages 16–18

12-Week Progressive Program

LCB TRAINING

Coach Broc • Player Development Program

Program Overview

For high school athletes, mobility is often the difference between staying healthy through a long season and breaking down mid-year. This program targets the exact ranges of motion a baseball player needs — hip internal rotation for rotational power, thoracic spine mobility for throwing velocity, shoulder integrity for a healthy arm, and hamstring and ankle flexibility for explosive movements. At this level, this is not optional. It's part of your training.

Program Structure

Weeks 1–4 (Foundation): Establishing baseline ranges across all key areas and building daily consistency.

Weeks 5–8 (Build): Deepening ranges with longer holds and adding baseball-specific patterns.

Weeks 9–12 (Performance): Full-body mobility flows at training intensity, integrated with baseball movement patterns.

Do this 4–5x per week. Ideally as a daily pre-practice warm-up and as a post-practice cooldown on heavy training days. Sessions take 20–30 minutes.

Questions About an Exercise?

Not sure how a stretch is supposed to look? Check the Exercise Glossary on the next page. Still have questions? Shoot Coach Broc an email or do a quick search online.

Exercise Glossary – Mobility (Ages 16-18)

Quick form reminders for every exercise in this program, listed alphabetically for easy reference.

90/90 Hip Internal Rotation: Sit in 90/90 position, gently press the front knee toward the ground to increase internal rotation of the hip.

Active Leg Lowering: Lie on your back, raise one leg straight up, slowly lower it toward the ground while keeping the other leg flat, stop before the lower back arches.

Ankle Dorsiflexion Stretch: In a lunge position, drive the front knee forward over the toes as far as possible without the heel leaving the ground.

Cat-Cow: On hands and knees, arch the back up (cat) then drop the belly and lift the head (cow), slow and controlled breathing throughout.

Couch Stretch: Place one knee near a wall, raise that foot up the wall, drive the hip forward while keeping the torso upright.

Cross-Body Shoulder Stretch: Bring one arm straight across the chest, use the other arm to pull it closer, feel the rear shoulder and rotator cuff.

Dead Hang: Hang from a pull-up bar with full grip, let the shoulders fully decompress and the spine lengthen, breathe and relax.

Deep Squat to Stand: Hold a deep squat position with arms extended, then stand fully and repeat, works hips, ankles, and thoracic spine together.

Half-Kneeling Hip Flexor Stretch: Kneel on one knee, squeeze the glute of the kneeling leg, push the hip forward until you feel the front of the hip stretch.

Hip 90/90 Flow: From 90/90, rotate slowly through both hip positions back and forth without using hands, controlled and smooth.

Kneeling Thoracic Rotation with Reach: Half-kneeling position, one hand behind head, rotate the elbow as high toward the ceiling as possible, follow with the eyes.

Lat Stretch (overhead bar): Grip a rack or bar overhead with one hand, step back slightly, push the hip away and let the lat fully stretch.

Pigeon Pose: From push-up position, bring one knee forward behind the wrist, extend the other leg back, square the hips and hold.

Posterior Shoulder Capsule Stretch: Lie on the throwing-arm side, bend elbow to 90 degrees, use the other hand to gently press the forearm toward the ground.

Prone Press-Up: Lie face down, place hands near the shoulders, press the chest up while keeping the hips on the ground, like an upward dog.

Scorpion Stretch: Lie face down, swing one foot up and across the body toward the opposite hand while keeping the shoulders flat on the ground.

Seated Hamstring Stretch: Sit with legs straight, hinge forward from the hips with a flat back reaching toward the toes.

Side-Lying Thoracic Rotation: Lie on your side with knees stacked at 90 degrees, reach the top arm across and rotate the thoracic spine, follow the arm with your eyes.

Standing Hip CARs: Stand on one leg, draw the largest possible circle with the opposite knee, moving slowly through every degree of hip range.

Thoracic Foam Roll: Place a foam roller under the mid-back horizontally, support the head, gently extend over it at different segments.

World's Greatest Stretch: Deep lunge position, both hands inside the front foot, rotate one arm toward the ceiling, hold at the top before switching.

WEEK 1

FOUNDATION PHASE

Mobility Warm-Up

Exercise	Sets	Reps / Time	Rest
Cat-Cow	1	10 reps	—
World's Greatest Stretch	1	6 each side	—
Deep Squat to Stand	1	10 reps	—
Ankle Dorsiflexion Stretch	1	8 each leg	—

Mobility Work

Exercise	Sets	Reps / Time	Rest
Pigeon Pose	2	40 sec each side	—
90/90 Hip Internal Rotation	2	15 reps each side	—
Couch Stretch	2	40 sec each leg	—
Kneeling Thoracic Rotation with Reach	2	12 each side	—
Posterior Shoulder Capsule Stretch	2	40 sec each arm	—
Seated Hamstring Stretch	2	30 sec each leg	—

Coach's Note: These six areas are the most commonly restricted in baseball players. Take your time and breathe into each one.

WEEK 2

FOUNDATION PHASE

Mobility Warm-Up

Exercise	Sets	Reps / Time	Rest
Cat-Cow	1	10 reps	—
World's Greatest Stretch	1	6 each side	—
Deep Squat to Stand	1	10 reps	—
Ankle Dorsiflexion Stretch	1	8 each leg	—

Mobility Work

Exercise	Sets	Reps / Time	Rest
Pigeon Pose	2	45 sec each side	—
90/90 Hip Internal Rotation	2	15 reps each side	—
Couch Stretch	2	45 sec each leg	—
Kneeling Thoracic Rotation with Reach	3	12 each side	—
Posterior Shoulder Capsule Stretch	2	45 sec each arm	—
Active Leg Lowering	2	10 each leg	—

WEEK 3

FOUNDATION PHASE

Mobility Warm-Up

Exercise	Sets	Reps / Time	Rest
Cat-Cow	1	10 reps	—
World's Greatest Stretch	1	6 each side	—
Deep Squat to Stand	1	10 reps	—
Ankle Dorsiflexion Stretch	1	8 each leg	—

Mobility Work

Exercise	Sets	Reps / Time	Rest
Pigeon Pose	3	45 sec each side	—
Hip 90/90 Flow	2	10 each direction	—
Couch Stretch	3	45 sec each leg	—
Side-Lying Thoracic Rotation	2	12 each side	—
Posterior Shoulder Capsule Stretch	3	45 sec each arm	—
Prone Press-Up	2	10 reps	—

Coach's Note: Side-Lying Thoracic Rotation is excellent for throwing athletes — this directly improves arm path and velocity.

WEEK 4

FOUNDATION PHASE

Mobility Warm-Up

Exercise	Sets	Reps / Time	Rest
Cat-Cow	1	10 reps	—
World's Greatest Stretch	1	6 each side	—
Deep Squat to Stand	1	10 reps	—
Ankle Dorsiflexion Stretch	1	8 each leg	—

Mobility Work

Exercise	Sets	Reps / Time	Rest
Pigeon Pose	3	50 sec each side	—
Hip 90/90 Flow	3	12 each direction	—
Half-Kneeling Hip Flexor Stretch	3	45 sec each leg	—
Side-Lying Thoracic Rotation	3	12 each side	—
Posterior Shoulder Capsule Stretch	3	50 sec each arm	—
Dead Hang	2	20 sec	—

Coach's Note: End of Foundation Phase — ranges should already feel noticeably more open. Dead Hang decompresses the entire shoulder and spine.

WEEK 5

BUILD PHASE

Mobility Warm-Up

Exercise	Sets	Reps / Time	Rest
Cat-Cow	1	10 reps	—
World's Greatest Stretch	1	6 each side	—
Deep Squat to Stand	1	10 reps	—
Ankle Dorsiflexion Stretch	1	8 each leg	—

Mobility Work

Exercise	Sets	Reps / Time	Rest
Standing Hip CARs	2	5 each direction per leg	—
Pigeon Pose	3	50 sec each side	—
Thoracic Foam Roll	2	10 extensions	—
Kneeling Thoracic Rotation with Reach	3	15 each side	—
Posterior Shoulder Capsule Stretch	3	50 sec each arm	—
Lat Stretch (overhead bar)	2	30 sec each arm	—

Coach's Note: Hip CARs (Controlled Articular Rotations) train active control through your full hip range — slow and deliberate, not a swing.

WEEK 6

BUILD PHASE

Mobility Warm-Up

Exercise	Sets	Reps / Time	Rest
Cat-Cow	1	10 reps	—
World's Greatest Stretch	1	6 each side	—
Deep Squat to Stand	1	10 reps	—
Ankle Dorsiflexion Stretch	1	8 each leg	—

Mobility Work

Exercise	Sets	Reps / Time	Rest
Standing Hip CARs	2	6 each direction per leg	—
Pigeon Pose	3	55 sec each side	—
Thoracic Foam Roll	3	10 extensions	—
Side-Lying Thoracic Rotation	3	15 each side	—
Scorpion Stretch	3	10 each side	—
Lat Stretch (overhead bar)	2	35 sec each arm	—

WEEK 7

BUILD PHASE

Mobility Warm-Up

Exercise	Sets	Reps / Time	Rest
Cat-Cow	1	10 reps	—
World's Greatest Stretch	1	6 each side	—
Deep Squat to Stand	1	10 reps	—
Ankle Dorsiflexion Stretch	1	8 each leg	—

Mobility Work

Exercise	Sets	Reps / Time	Rest
Standing Hip CARs	3	6 each direction per leg	—
Pigeon Pose	3	60 sec each side	—
Thoracic Foam Roll	3	12 extensions	—
Swing Rotation Flow (batting stance)	3	15 each side	—
Posterior Shoulder Capsule Stretch	3	55 sec each arm	—
Dead Hang	3	25 sec	—

Coach's Note: Swing Rotation Flow: in your actual batting stance, rotate through your full swing range slowly emphasizing thoracic rotation, not just arms.

WEEK 8

BUILD PHASE

Mobility Warm-Up

Exercise	Sets	Reps / Time	Rest
Cat-Cow	1	10 reps	—
World's Greatest Stretch	1	6 each side	—
Deep Squat to Stand	1	10 reps	—
Ankle Dorsiflexion Stretch	1	8 each leg	—

Mobility Work

Exercise	Sets	Reps / Time	Rest
Standing Hip CARs	3	8 each direction per leg	—
Pigeon Pose	3	60 sec each side	—
Thoracic Foam Roll	3	12 extensions	—
Swing Rotation Flow	3	18 each side	—
Scorpion Stretch	3	12 each side	—
Dead Hang	3	30 sec	—

Coach's Note: End of Build Phase — hip and thoracic ranges should be measurably better. You'll feel it in the box.

WEEK 9

PERFORMANCE PHASE

Mobility Warm-Up

Exercise	Sets	Reps / Time	Rest
Cat-Cow	1	10 reps	—
World's Greatest Stretch	1	6 each side	—
Deep Squat to Stand	1	10 reps	—
Ankle Dorsiflexion Stretch	1	8 each leg	—

Mobility Work

Exercise	Sets	Reps / Time	Rest
Full Body Mobility Flow (all key movements)	1	Full sequence	—
Standing Hip CARs	3	8 each direction per leg	—
Swing Rotation Flow	4	18 each side	—
Posterior Shoulder Capsule Stretch	3	60 sec each arm	—
Dead Hang	3	30 sec	—

Coach's Note: Run through your full-body flow without stopping — this is your pre-game warm-up routine for the rest of your career.

WEEK 10

PERFORMANCE PHASE

Mobility Warm-Up

Exercise	Sets	Reps / Time	Rest
Cat-Cow	1	10 reps	—
World's Greatest Stretch	1	6 each side	—
Deep Squat to Stand	1	10 reps	—
Ankle Dorsiflexion Stretch	1	8 each leg	—

Mobility Work

Exercise	Sets	Reps / Time	Rest
Full Body Mobility Flow	1	Full sequence	—

Exercise	Sets	Reps / Time	Rest
Standing Hip CARs	3	10 each direction per leg	—
Swing Rotation Flow	4	20 each side	—
Thoracic Foam Roll	3	12 extensions	—
Pigeon Pose	3	60 sec each side	—

WEEK 11

PERFORMANCE PHASE

Mobility Warm-Up

Exercise	Sets	Reps / Time	Rest
Cat-Cow	1	10 reps	—
World's Greatest Stretch	1	6 each side	—
Deep Squat to Stand	1	10 reps	—
Ankle Dorsiflexion Stretch	1	8 each leg	—

Mobility Work

Exercise	Sets	Reps / Time	Rest
Full Body Mobility Flow	2	Full sequence	—
Standing Hip CARs	3	10 each direction per leg	—
Swing Rotation Flow	4	20 each side	—
Scorpion Stretch	3	14 each side	—
Dead Hang	3	35 sec	—

Coach's Note: Almost there — your body should move completely differently than it did 11 weeks ago.

WEEK 12

PERFORMANCE PHASE

Mobility Warm-Up

Exercise	Sets	Reps / Time	Rest
Cat-Cow	1	10 reps	—
World's Greatest Stretch	1	6 each side	—

Exercise	Sets	Reps / Time	Rest
Deep Squat to Stand	1	10 reps	—
Ankle Dorsiflexion Stretch	1	8 each leg	—

Mobility Work

Exercise	Sets	Reps / Time	Rest
Full Body Mobility Flow	2	Full sequence	—
Standing Hip CARs	3	10 each direction per leg	—
Swing Rotation Flow	4	20 each side	—
Posterior Shoulder Capsule Stretch	3	60 sec each arm	—
Dead Hang	3	35 sec	—

Coach's Note: Program complete. Keep this as your year-round daily routine. The athletes who stay healthy and improve every season are the ones who treat mobility like training — not an afterthought. Check in with Coach Broc about your next block.
