

Player Evaluation Report

"Work Hard. Be Memorable."

Mark Battin | Northwest Travelers 12U White | September 9, 2026

Strengths

- Strong, athletic build with good leg strength
- Quick and powerful hip rotation
- Naturally good posture
- Gets the ball out front and drives it well to the pull side

Areas to Improve

- Wrapped bat path -- knob toward the umpire instead of the catcher's toes -- limits eyes on the pitcher and creates a steep, late path
- Handles inside pitches well but struggles away; pulls off inside fouls instead of staying through fair
- Finishes off-balance toward third base rather than stacked over the plate
- Very coachable and hard-working, but confidence can dip when a swing doesn't go as planned

Recommended Drills

- Top-hand isolation drill -- drive through the ball toward second base
- Low-and-away tee, set slightly out front, to get the barrel in earlier and drive the ball to right-center
- Daily mirror reps on load -- front shoulder open, knob at the catcher's toes
- Finish-and-freeze off tee, flips, or machine -- knee, shoulder, and head stacked at finish

Note from Coach Broc

Mark, you have real strength and natural power -- and a great foundation to build on. The adjustments above are very workable, and every hitter has swings that don't go as planned. That's part of the process. Stay confident, stay coachable, and keep putting in the work. Thank you to the Battin family for trusting LCB Training. We would love to keep training together -- please reach out anytime.

Between sessions, Mark can keep developing with The Next Level Playbook and the full LCB Training online platform -- video drills, workout programs, and coaching tools built to support his progress.
