

Player Evaluation Report

"Work Hard. Be Memorable."

Vincenzo Gaudio | Northwest Travelers 12U White | September 10, 2026

Strengths

- Raw natural power with a strong, athletic swing
- Excellent posture staying behind the baseball
- Consistently stays through contact
- Highly coachable, articulate approach to the game

Areas to Improve

- Upper half spins open too early, dragging the barrel through the zone instead of driving through contact
- Head tends to fly out and hands cast away from the body
- Hard ground balls to shortstop rather than driven balls, especially on pitches up and in

Recommended Drills

- Inside-pitch tee work -- stay inside the ball and drive it up the middle or to left-center rather than pulling it
- Ride-the-white-line hand cue -- keep the hands on a direct path and prevent spinning open
- Lead-arm drill -- top hand on the bat while keeping the front shoulder closed through contact

Note from Coach Broc

Vincenzo, your raw power and natural feel for hitting really stand out -- and your coachability and understanding of the game are a great foundation to build on. The adjustments above are very workable, and with focused reps you can keep that power while driving the ball more consistently. Thank you to the Gaudio family for trusting LCB Training. We would love to keep training together -- please reach out anytime.

Between sessions, Vincenzo can keep developing with The Next Level Playbook and the full LCB Training online platform -- video drills, workout programs, and coaching tools built to support his progress.
