Player Evaluation Report

"Work Hard. Be Memorable."

Jonathan Kurey | Northwest Travelers 12U | August 26, 2026

Strengths

- Exceptional lower half movement with great balance behind the front foot
- Stacked and connected posture through the swing with no hip drift
- Strong power for his age and stage
- Good barrel accuracy

Areas to Improve

- Front shoulder tends to fly out during the swing
- Hands are long with a casting motion similar to a golf swing, causing his head to pull off the ball
- Focus on creating a quicker, more connected upper half

Recommended Drills

- Low-and-away tee drill focused on driving the ball to the opposite field to train a closed front shoulder and strong posture over the plate
- Top-hand-only swing drill with the lead arm held up to build connection and shorten the swing path

Note from Coach Broc

Jonathan has a lot to be excited about. His athleticism and coachability stood out right away, and he is already building habits that will serve him well as he keeps growing. The areas noted above are very workable, and with consistent reps on the recommended drills, he can make meaningful progress quickly. Thank you to the Kurey family for trusting LCB Training with Jonathan's development -- and to his coaches for the support around him. We would love to keep training together and help him take the next step. Please reach out anytime.

Keep building, Jonathan

12-Week Coaching Program

A daily plan, weekly video breakdowns, and direct access to me.

Fix-It Hitting Plans

3-week plans for the problems I see most. $19.
