Player Evaluation Report

"Work Hard. Be Memorable."

Judah | Northwest Travelers 12U White | October 6, 2026

Strengths

- Athletic, strong frame with exceptional lower half strength
- Finish stays balanced behind the front foot
- Powerful hip rotation that generates real pop
- Coachable -- asks thoughtful clarifying questions to make sure he understands drills correctly

Areas to Improve

- Wrapped bat with the knob pointing toward the umpire instead of the catcher's feet, creating a long, dragging swing and causing his hands to cast away from his body
- Hooks pitches on the inside half rather than driving them up the middle
- Tends to lunge and rush his hands against slower pitching, like flips, instead of letting the ball travel
- Falls out toward third base after contact rather than staying balanced over the plate
- Learning to control and channel his natural strength

Recommended Drills

- Knob-to-knee drill to train the hands separating properly with the knob pointed at the catcher's feet
- Top-hand drill emphasizing eyes and chest staying behind contact
- Tee and flip work avoiding the left side of the net to train staying inside the ball and driving it up the middle
- Step-over-the-plate drill after contact to build balance and prevent falling out toward third base

Note from Coach Broc

Judah has a lot to build on. His strength and natural hip power are real assets, and his coachable attitude makes him easy to work with. The swing adjustments we outlined are very workable, and with consistent reps on the recommended drills, he can start turning that power into more consistent line drives up the middle. Thank you to the family for trusting LCB Training with Judah's development -- we would love to keep training together and help him take the next step. Please reach out anytime.

Between sessions, Judah can keep developing with The Next Level Playbook and the full LCB Training online platform -- video drills, workout programs, and coaching tools built to support his progress.
